ABOUT OUR COMPANY

M & M COMPUTER SERVICES

is a national company based in San Antonio, Texas. We are the designers, developers and sole owners of MARS (Medical Accounts Receivable System). We installed our first medical system in 1976 and now have installations throughout the U.S. We are a true turnkey single source vendor. We offer a nationwide hardware service available through major vendors. Customers under our extended support program receive software updates at no charge. Custom program modifications are available for a nominal fee. We provide State or Federally mandated changes on the system prior to the required date. We offer quarterly enhancements to protect your investment, as well as periodic newsletters.
